

Chellaram Diabetes Institute's - 2nd International Diabetes Summit 2018
9th to 11th March 2018
Venue: J W Marriott, Pune

Scientific Program, Day 1 , Friday 9th March 2018

BANTING HALL				BEST HALL			
Time	Topic	Speaker	Chairpersons	Time	Topic	Speaker	Chairpersons
Introductory Symposium				Clinical Frontiers In Diabetes Therapy			
01.30 - 01.55 pm	Gestational diabetes management: clinical perspectives	Uma Ram	Mugdha Joshi Shashi Sangle	01.30 - 01.55 pm	Clinical dilemmas in diabetes diagnosis	Sachin Chittawar	Shripad Bhat Simpal Kothari
02.00 - 02.25 pm	Cases of familial hypercholesterolemia	Vinaya Simha	Vineet Rao Anu Gaikwad	02.00- 02.20 pm	Perioperative glucose control	Sanjay Agarwal	Shilpa Bhosale Sandeep Tamane
02.30 - 02.55 pm	Concentrating on concentrated insulin	Akshay Jain	Sonali Bhojane Syed Javaz	02.25 - 02.45 pm	Examples of managing extreme obesity (Weight > 250kg)	Aparna Govil	Neeraj Rayate Satish Pattanshetti
Diabetes Management Symposium				Treating the Outliers			
03.00 - 03.30 pm	Is it really type 2 diabetes ?	C B Sanjeevi	Varsha Jagtap Dakshata Padhye	02.50 - 03.15 pm	Case studies on lipodystrophy	Vinaya Simha	Hemant Manjrekar Sarita Kulkarni
03.35 - 04.00 pm	Inauguration arrangements			03.20 - 03.45 pm	Targeting renal risk post Metformin: can DPP4i address glycemic instability	Shrirang Godbole	Sankarnath Jha D B Kadam
04.00 - 05.00 pm	INAUGURATION PROGRAM FOLLOWED BY TEA BREAK			03.50 - 04.00 pm	Move to Banting Hall for inauguration		
				04.00 - 05.00 pm	INAUGURATION PROGRAM AT BANTING HALL		
Special Lecture				Special Lecture			
05.00 - 05.25 pm	Diabetic neuropathy-2018	Andrew Boulton	Amrish Bidaye Manisha Deshmukh	05.00 - 05.25 pm	Capacity building in chronic conditions	Arun Jose	Shailesh Deshpande
New Vistas in Diabetes				Hot Topics in Diabetes			
05.30 - 05.55 pm	Interpreting cardiovascular outcome trials in diabetes	Hemraj Chandalia	V S Srikanthan Mohan Shenoy	05.30 - 05.50 pm	Case studies of testosterone treatment in type 2 diabetes	Yashpal Gogate	Mohan Magdum
06.00 - 06.20 pm	The artificial pancreas update	Ananda Basu	Suhas Erande Manish Agarwal	05.55 - 06.15 pm	Clinical approaches to thin-thin young diabetes	Alok Kanungo	Manjushree Kumar Vinayak Harale
06.25- 06.45 pm	Diabetes and the foot- kidney link	Andrew Boulton	Amit Naghate Dakshata Padhye	06.20- 06.40 pm	Endocrine hypoglycemia	Mohan Shenoy	Hemant Phatale Milind Patil
Symposium- Challenges in Hyperglycemia				Move to Hall A			
06.50 - 07.10 pm	Combining modern SUs with Insulin: newer concepts	Arundhati Dasgupta	J Muthukrishnan S Shinde				
07.15 - 07.35 pm	15 Years of basal experience in India: from today to tomorrow	Awadhesh Kumar Singh					
07.40 - 08.00 pm	Fixed or flexible: an Indian perspective on basal intensification	Krishna Seshadri					
08.05 - 08.30 pm	Questions & Answers						
08.30 pm	CLOSING AND DINNER						

Scientific Program, Day 2 , Saturday 10th March 2018

BANTING HALL				BEST HALL			

Time	Topic	Speaker	Chairpersons	Time	Topic	Speaker	Chairpersons
08.00 - 08.55 am	Free paper Session			08.00 - 08:45 am	Recent Advances in Clinical assessment & treatment of subclinical	Dr Shaila Sheik	M. Shenoy V.Purandare
09.00 - 09.55 am	Debate: Advances in Type 1 Diabetes			08.50 - 09.45 am	Debate: Low Calorie Diet and Diabetes		
	All type 1 diabetes need pump therapy	Altamash Shaikh	Rahul Dhope Suresh Purohit		Carbohydrate restriction is the key to better metabolic health - YES	Neeta Deshpande	A L Kakrani Suresh Shinde
	All type 1 diabetes do not need pump therapy	Mathew John			Carbohydrate restriction is the key to better metabolic health - NO	Anjali Bhatt	
	Discussion				Discussion		
	Technology and Therapeutics				Is Inflammation the New Cholesterol ?		
10.00 - 10.25 am	The hunt for the best basal	Ambrish Mithal	Reema Tandale Ravindra Kiwalkar	10.00 - 10.20 am	Inflammation and diabetes, clinical implications	Mala Dharmalingam	Arundhati Diwan
10.30 - 10.55 am	Clinical perspective on using CSII-Sensor combination in type 1 diabetes	Eva Ortqvist	N R Rau Karthik Rao	10.25 - 10.45 am	Hydroxychloroquine in clinical practice	Sushil Jindal	
				10.45 - 11.00 am	Discussion		
	New Frontiers in Type 2 Diabetes Management				Expert-Speak on Diabetes		
11.00 - 11.25 am	Are we different? Incretin effect in Asians	Dr Awadhesh Kumar Singh	Hemant Kulkarni Gauri Damle	11.00 - 11.25 am	Diabetes care during Ramadan - Case Studies	V Abichandani	Madhulika Mahashabde Mukund Penurkar
11.30 - 11.55 am	Stratifying diabetes- a primer of case studies	David Leslie	Manish Agarwal Anita Nambiar	11.30 - 11.55 am	PCOS and pregestational diabetes - case studies	Mala Dharmalingam	Sachin Yadav Uma Divate
12.00 - 12.25 pm	Cases of MODY in India- and clues to future research	Anjana Mohan	Priti Phatale Vasudha Sardesai	12.00 - 12.25 pm	Interesting cases of type 1 diabetes	Desmond Schatz	Hemant Phatale Jaydip Revale
12.30 - 12.55 pm	Alternative routes for injectible diabetic therapies	Ananda Basu	Amit Walimbe Ashwini Joshi	12.30 - 12.55 pm	The diabetes landscape : a biosimilar perspective	S Venkataraman	Sudam Khedkar Anjali Bhatt
01.00 - 01.25 pm	Why it is important to prevent influenza in diabetes patients and how to do it. A practical masterclass	Ake Ortqvist	Bharat Purandare Preeti Gholap	1.00 -2.00 pm	Lunch		
01.30 - 02.30 pm	Lunch				Special Lecture		
				02.00 - 02.25 pm	Diabetes drugs and CVD : case based perspectives	David Leslie	U B Shetkar Abhijit Baldota
02.30 - 02.55 pm	Type 1 diabetes - therapy progress in the last 10 years	Desmond Schatz	Philip Finny Ganesh Jevalikar		Gliptin and Gliflozins – What's in store?		
03.00 - 03.25 pm	Case studies with RT-CGM in type 1 diabetes	Peter Adolfsson	B. B. Harshe Shrikant Page	02.30 - 02.45 pm	The cardiovascular story of DPP4i - what's New	Uday Phadke	Rajeev Sethi Sudhir Mundale
	Choosing SGLT2i in 2018			02.45 - 03.00 pm	SGLT2 in T2DM- has the prime time arrived?	Awadhesh Kumar Singh	Nitin Gade
03.30 - 03.50 pm	SGLT2i in post CANVAS era: focus on renal outcomes	Ambrish Mithal		03.00- 03.15 pm	Need and position of Empagliflozin FDC: Two (w)ins are better than one	Samit Ghosal	Atul Joshi
				03.15 - 03.25 pm	Questions & Answers		
03.55 - 04.15 pm	Panel discussion	R K Sahay Unnikrishnan AG & Vaishali			Endocrinology Session		
				03.30 - 03.50 pm	Hypothyroidism management: interpreting Bizarre thyroid function	Shriraam Mahadevan	S K Sinha Vinayak Kale
				03.55 - 04.15 pm	Pituitary and diabetes- case studies	Simon Rajaratnam	
				04.20 - 04.30 pm	Questions & Answers		
TEA WILL BE SERVED THROUGHOUT THE DAY				TEA WILL BE SERVED THROUGHOUT THE DAY			
	The Next Gliflozin Era				Special Topics		
04.25 - 04.50 pm	Early intensification – SGLT2i a logical approach	Shrirang Godbole	Pratibha Phadke Kadloor Satyanand	04.35 - 04.55 pm	R.I.P Basal bolus therapy ?	Ajay Kumar	Deepanjali Pawar R T Borse

04.55 - 05.20 pm	CVD Real - A real-world look at the effectiveness of SGLT-2 inhibitors	Samit Ghosal	Aniket Gadre Manish Bothale	05.00 - 05.25 pm	Diabetes and psoriasis: clinical insights from published evidences	Satinath Mukhopadhyaya	Suganthi Kumaran
Practical Diabetology				GLP1 Therapy Symposium Discussion			
05.25 - 05.50 pm	Approach to common diabetic foot problems	Harish Kumar	Ravindra Panse Amit Naghate Manisha Deshmukh	05.30 - 05.45 pm	GLP1ra in the continuum of diabetes care	Ambrish Mithal	Anjali Bhatt Suganthi Kumaran
05.55 - 06.20 pm	Nocturnal glycemc control in type 2 diabetes	Rita Basu	Alok Modi Rajesh Javherani	05.45 - 06.00 pm	Case 1. Once a week GLP1ra for diabetes in a bariatric clinic	Shashank Shah	
06.25 - 06.50 pm	Can medical intervention modify diabetic retinopathy?	Massimo Porta	Savita Bhat Anand Palimkar	06.00 - 06.15 pm	Case 2. Once a week GLP1ra: practical management illustrated	Shrirang Godbole	
Symposium on New Generation Therapies				HbA1c and Beyond			
06.55 - 7.15 pm	Indian premix guidelines: A practical guide to insulin use in routine clinical care	Ajay Kumar		06.30 - 06.55 pm	HbA1C interpretation in clinical practice - what we did not know!	Sujoy Ghosh	
07.20 - 7.40 pm	The triad story of T2D - variability, hypoglycaemia & clinical outcomes	Uday Phadke	Yogesh Kadam Unnikrishnan AG	7.00 - 7.25 pm	NCDs in the Next Millenium	Ashok Kumar Das	Radhikant Padhi Shailesh Deshpande Sandeep Rai
07.45 - 7.55 pm	Questions & Answers				Move to Hall A		
08.00 pm	CLOSING AND DINNER						

Scientific Program, Day 3 , Sunday 11th March 2018

BANTING HALL				BEST HALL			
Time	Topic	Speaker		Time	Topic	Speaker	
08.00 - 08.45 am	Research Award Presentation			08.00 - 09.45 am	Free paper Session		
	Technology and Diabetes				Managing Diabetes in Practice		
09.00 - 09.25 am	Glucose control during dialysis	Rajesh Javherani	Vedavati Purandare N C Ambekar	09.00 - 09.25 am	Do all people with diabetes need statins?	Suganthi Kumaran	Ranjit Patil Abhay Khode
09.30 - 09.55 am	Flash glucose monitoring in differing clinical scenarios	Ranjit Unnikrishnan	Sanjay Gandhi Sonali salvi	09.30 - 09.55 am	Managing T2DM Pathophysiologies vs. managing T2DM complications: same difference?	Binayak Sinha	R B Kulkarni Dilip Bhoge
TEA WILL BE SERVED THROUGHOUT THE DAY				TEA WILL BE SERVED THROUGHOUT THE DAY			
	Targeting Hyperglycemia and Beyond				Practical Diabetes Management		
10.00 - 10.25 am	Ultrafast acting insulins: Future directions and clinical possibilities	Dr. Lise Grimmeshave	Unnikrishnan AG Pramod Umarji	10.00 -10.25 am	How do we manage blood glucose in the diabetic patient with impaired kidney function?	Michael Alvarsson	Tushar Dighe Tarun Jeloka
10.30 - 10.55 am	The management of hypoglycemia - case studies	Pankaj Shah	K.J. Singh	10.30 - 10.55 am	What is the legacy story with OADs ?	Sharvil Gadve	Manish Bothale Meenakshi Kalyan
11.00 - 11.25 am	Digital connectivity in glucose management	Mangesh Tiwaskar	Mahesh Kulkarni Sagar Maheshwari		Oral Therapy for the Next Decade		
				11.00 - 11.25 am	Heart Failure Hospitalization Risk with DPP-4 Inhibitors: Myth or Reality?	Shailaja Kale	
11.30 - 12.00 pm	Future of NASH therapies	Rita Basu	A L Kakrani B Prasad	11.25 - 11.45 am	DPP4i - Still a Valuable Therapeutic Partner	Anant Nigam	Atul Biniwale Manish Bothale
				11.45 - 12.00 noon	Discussion		
					Clinical Diabetology 2018		

12.05 - 12.25 pm	Screening for sight-threatening diabetic retinopathy in 2018	Massimo Porta	Mamta Deshpande Prachi Deshpande	12.05 - 12.25 pm	Can immunotherapy tackle diabetes ?	C B Sanjeevi	Sanjeev Mangrulkar Atul Gavankar
12.30 - 12.55 pm	The challenge of the severely insulin resistant patient	Michael Alvarsson	Rahul Doshi Sadanand raut	12.30 - 01.00 pm	Case perspectives- treating diabetes in terminally ill	Pankaj Shah	Gautam Sharan Gourish Karande
01.00 pm	Valedictory Ceremony and Lunch
